

CARLOS ARCE-MERCADO

Digital Media and Web Technology Major, With Prior Work Experience, Seeking New Job Opportunity In Front-end

Web Development or UX/UI field.

Herndon, VA 20170

arce.code@gmail.com

7874542838

I am a college student that will graduate from University of Maryland Global Campus on December 2019. I am pursuing a Bachelor of Science in Digital Media and Web Technology from UMGC, with the goal of becoming a Front-end Web Developer or a UX/UI Developer. I have built web sites using HTML, CSS, and JavaScript, and I have built web applications using JavaScript libraries and frameworks as part of my studies. My most recent projects include a Memory Game web application that uses JavaScript to manipulate HTML and CSS via the DOM. I have also made a web application that uses Object Oriented Javascript to handle game events on a Frogger game clone. Most recently, I have been working with managing SharePoint sub-sites content with HTML, CSS, and JavaScript manipulation. I have applied knowledge of wire-framing, mock-up design, user experience and interaction design logic, online publication formatting, photo-shop content creation, illustrator content creation, HTML, CSS, LESS, SASS, and JavaScript to create custom web-site content.

Authorized to work in the US for any employer

WORK EXPERIENCE

Software Design Engineer

Idea Entity Corporation - Herndon, VA

September 2019 to Present

- Develop web based applications to solve complex government problems via deliverable solutions.
